Financial Accounting vi Objectives and Scope of Accounting Let us go through the main objectives of Accounting: To keep systematic records: Accounting is done to keep systematic record of financial transactions. The primary objective of accounting is to help us collect financial

Financial Accounting - tutorialspoint.com

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
