An antibiotic is a type of antimicrobial substance active against bacteria and is the most important type of antibacterial agent for fighting bacterial infections. Antibiotic medications are widely used in the treatment and prevention of such infections. They may either kill or inhibit the growth of bacteria. A limited number of antibiotics also possess antiprotozoal activity.

I have been a cynical towards people who worry about smart meters for a couple years, even was an early

adopter nearly 5 years ago. The last year I have been experiencing a chronic sore throat that my doctors can't explain, my kids are developing learning disabilities, among other strange health issues.
